CREATIVE MUSEUM

WHO WAS VOJTECH LÖFFLER?

Vojtech Löffler was born in Košice on April 16, 1906. His father was an officer in the army of the Austro-Hungarian monarchy.

When Vojtech was 10, his father enrolled him in the Cadet school in Târgu Mureş (Ro), but after 2 yrs Vojtech fled back to Košice. He studied to be a dental technician. He was also a wrestler and participated in international competitions. Beside his work, he started sculpting. Vojtech privately studied sculpture in Vienna and Budapest.

His first exhibition took place in Košice in the East Slovak Museum in 1937. Towards the end of the WW2 he was dragged as a prisoner to the Soviet Union where he and his 6 fellow sculptors made 21 life-size sculptures and some smaller ones. After returning to Košice, he became actively involved in the cultural life of the city.

His artwork is **figurative**. He often depicted female figures. His first wife was Emilia, and his second Klara.

He made small sculptures and jewelry of valuable materials such as ivory, amber, coral or silver. He collected pottery and **self-portraits**.

Vojtech visited England, France, Italy, Greece, Egypt, Lebanon, Canada, USA and Hungary for study trips. He was awarded several awards, such as the Košice City Award or the Slovak Ministry of Culture Award.

In 1989 he moved into the building on Alžbetina street in Košice, which is currently a museum and gallery.

Vojtech Löffler was generous and always supported young artists, he died in Košice on February 11, 1990.

One can also find his artwork in the neighbourhood of the museum.

- * **A bronze relief of the portrait and coat of arms of Francis II. Rákóczi on the north wall of the St. Elisabeth's Cathedral**
- * **5 symbols above the main entrance of the House of Arts**
- * **Bronze portraits of Halász-Hradil Elemér and Csordák Lajos on the wall of the Rotunda at Zbrojničná street**

DICITONARY

cadet - a young trainee in the armed services

figurative - representation of form or figure in art

sculpture - the art of making two- or three-dimensional forms, by carving stone or wood or by casting metal or plaster.

relief - a mode of sculpture in which forms and figures are distinguished from a surrounding plane surface

selfportrait - a portrait of the artist created by the artist him/herself

Can you count, how many female selfportraits do we have exhibited in the museum?

Draw your self portrait.
